SUMMARY

Experienced and results-driven web developer with a strong foundation in creating scalable, high-performance web applications. Proficient in modern frameworks like Next.js and React.js, with expertise in multi-tenant architecture, payment integrations, and SaaS development. Passionate about leveraging cutting-edge technologies to deliver user-friendly solutions that drive business growth.

WORK EXPERIENCE

Multi-Tenant Portal Developer

DITCOSOFT TECHNOLOGIES

- Designed and developed a multi-tenant portal for managing user accounts, printing recharge card pins, and flushing pins.
- Enabled seamless domain-based tenant access using scalable architecture with role-based authentication.
- Enhanced backend connectivity and ensured smooth front-to-backend integration.

Web Developer

GREENCAL FOUNDATION

- Built a modern, responsive website for campaigns promoting menstrual hygiene education in Ebonyi State.
- Collaborated with stakeholders to ensure the platform met educational goals and usability standards.
- Enabled donations through the company account and cryptocurrency wallets, and increased the organization's online presence.

Freelance Developer

Various Projects

- Designed a blog platform and admin panel (e.g., onedivinesingularity.com) with dynamic content management.
 - Specialized in optimizing performance and building client-side pagination for improved UX.
 - Mentored peers in leveraging web workers to boost frontend performance
 - Developed company website for PEPNOPS INC (e.g., pepnops.com)
 - Built and authenticated the investors' portal for zstinger.com, a platform deploying state-of-the-art drones for precise and safe aerial inspections, enhancing backend connectivity and security.
-

EDUCATION

Bachelor's in Chemical Engineering

University of Lagos, NG
